DUKE UNIVERSITY PRESS SIGNS FRENCH NATIONAL LICENSE AGREEMENT WITH ISTE

Durham, NC—Duke University Press has signed a major agreement with [ISTEX](#), a French national licensing program, to make the [Duke Mathematical Journal](#) (*DMJ*) available to French research institutions.

With this agreement, 112 volumes of content from *DMJ* are made available to millions of users at over 330 French universities, grande écoles, research institutes, and libraries. Published by Duke University Press since its inception in 1935, *DMJ* is one of the world's leading mathematical journals. *DMJ* emphasizes the most active and influential areas of current mathematics and has several distinguished French mathematicians on its editorial board. The journal has published work by the Fields Medalists Cédric Villani, Ngô Bảo Châu, Jean-Pierre Serre, and Artur Avila.

Since 2012, ISTE has facilitated the massive acquisition of archives of scientific and mathematical production in all disciplines made available to public institutions of higher education and research in France on one central platform.

David Aymonin, Head of the [Bibliographic Agency for Higher Education](#), says, "All the four partners leading ISTE are happy to add quality mathematics content from the Duke Mathematical Journal to the ISTE initiative through our arrangement with Duke University Press. We see this partnership as bringing important mathematics scholarship to more researchers throughout France."

"The Press is delighted to have the opportunity to participate in the ISTE project by offering content from the Duke Mathematical Journal, including eminent French scholars, for use by mathematicians throughout France. We are grateful to TSP Diffusion for their support," says Cason Lynley, Director of Marketing and Sales at Duke University Press.

DMJ content is available to ISTE institutions on the Project Euclid platform at projecteuclid.org/euclid.dmj.

About ISTEEX

The ISTEEX project is a vast programme for the acquisition of scientific resources aimed at setting up a digital library which complies with the highest international standards and provides all members of higher education and research establishments with remote access to those resources. ISTEEX is part of the "Investments for the Future" programme initiated by the French Ministry for Higher Education and Research (MESR) the aim of which is to strengthen the position of French research and higher education on the worldwide stage. This innovative project is led by four partners: the National Center for Scientific Research (CNRS), the Bibliographic Agency for Higher Education (ABES), the Academic Consortium of Digital Publications (Couperin) and the University of Lorraine working on behalf of the Conference of University Presidents (CPU). For additional information, please visit istex.fr.

About Duke University Press

Duke University Press supports scholars in doing what they are passionate about: learning, teaching, and improving the world. This bold, progressive spirit drives both what and how the Press publishes. Each year Duke University Press publishes about 120 new books, more than 50 journals, and multiple digital collections that transform current thinking and move fields forward. We thrive as a nonprofit publisher because we adapt, innovate, and form strong global partnerships. It is our mission to find, curate, enrich, and disseminate scholarship that is vital to readers working at the forefront of their fields in the humanities, social sciences, and mathematics. For additional information, please visit dukeupress.edu.

About TSP Diffusion

Founded in 1995, TSP Diffusion is an independent dealer representing American and European scientific publishers in France, Belgium, Luxemburg and Maghreb. TSP Diffusion distributes electronic collections that include journals, e-books, standards, conference proceedings and e-learning courses destined to universities, research centers and corporate companies. Subject areas range from science and technology to humanities and social sciences. For additional information, please visit tsp-diffusion.com.
